

Cordless Electric Lawn Mower

This cordless lawn mower offers a powerful and convenient solution for lawn maintenance. It features a high-efficiency motor powered by a 40V battery, providing ample runtime for small to medium-sized yards.

Overview

High-Performance Cordless Mowing

Designed for efficiency and ease of use, this 40V cordless electric lawn mower delivers a clean cut with a 20-inch deck capacity. It features a brushless motor for powerful, quiet operation and a 3-in-1 functionality that supports mulching, rear bagging, and side discharge. With a foldable design for upright storage and LED headlights for visibility, this mower is an ideal solution for maintaining small to medium-sized yards up to 1/4 acre.
