

Cordless Electric Screwdriver

This cordless screwdriver is compact and lightweight, designed for various fastening tasks. It is powered by a rechargeable battery, providing extended runtime and cordless convenience.

Overview

Compact Cordless Convenience

This cordless electric screwdriver is designed for efficiency in various fastening tasks, from furniture assembly to general household repairs. It features a compact, ergonomic design with a rubber over-moulded grip for comfortable, extended use. Equipped with a built-in LED light, it ensures visibility in low-light environments, making it a versatile tool for professional and DIY projects.
