

Cordless Electric Steam Iron with Docking Station

This is a cordless electric and steam iron that comes with a docking station. It features a blue transparent water reservoir with a marked water level indicator.

Product Overview

Cordless Convenience for Efficient Ironing

This cordless electric steam iron offers freedom of movement, eliminating the hassle of tangled cords during use. Designed for household efficiency, it features a dedicated docking station that serves as both a recharging base and a secure storage solution. The unit includes a transparent water reservoir with clear level indicators, ensuring you can easily monitor water levels for consistent steam performance.
