

Cordless Electric Steam Iron

This cordless electric steam iron is designed with a non-stick soleplate, ensuring smooth gliding across various fabrics. It includes variable temperature control, a burst of steam function, a self-cleaning system, and a charging base for cordless convenience.

Product Overview

Cordless Efficiency

This cordless electric steam iron is designed for seamless fabric care, offering freedom of movement without the restriction of a power cord. Equipped with a non-stick soleplate, it ensures smooth gliding across various materials while minimizing fabric damage. The integrated charging base provides quick, convenient heating, while advanced safety features like overheat protection ensure reliable operation in any professional or home environment.

Key Features

Core Functionalities

- Cordless operation
- Variable temperature control
- Burst of steam function
- Self-cleaning system
- Overheat protection
