

# Cordless Electric Tube Flaring Tool

This cordless electric tube flaring tool delivers fast and accurate flaring in 5 seconds. The single-head design allows easy operation in confined spaces.

## Product Overview

### Professional Cordless Flaring Solution

The Cordless Electric Tube Flaring Tool is engineered for high-efficiency HVAC and refrigeration maintenance. It delivers precise, consistent flares in just 5 seconds, significantly reducing manual labor time. Its compact, single-head design allows for seamless operation in tight, confined spaces, while the cordless, battery-powered architecture ensures you are never restricted by environmental conditions or power outlet availability.

## Performance Metrics

### Flaring Speed

**5 seconds**

Flaring Time

## Power & Battery

Battery Capacity	4 Ah
Battery Chemistry	Li-ion

## Key Features

### Design Advantages

- Cordless portability
- Compact single-head design for tight spaces
- Environmentally independent operation
- Ergonomic handle

Ideal Applications	HVAC, Refrigeration, Tube Installation
