Product Overview

High-Reach Cordless Pruning Solution

This 58V cordless pole saw is engineered for efficient trimming and pruning in landscaping and gardening applications. The telescopic design allows for an extended reach of up to 15 feet, providing safe access to elevated tree branches without the need for ladders. Its powerful motor and high-capacity battery system ensure reliable performance and freedom of movement throughout the job site.

Technical Specifications

Motor Power	0.75 kw
Chain Linear Velocity	5 m/s
Oil Tank Volume	80 ml
Bar Length Range	8 - 10 inches

Performance Metrics

Operational Efficiency

50 min Max Run Time	80 units Cuts per Charge
