Product Overview

The lightweight 1.7kg design allows for easy one-handed operation in any garden environment.

A complete cordless solution for efficient garden maintenance and leaf removal.

Versatile Cordless Leaf Blower

This 20V cordless garden leaf blower offers a lightweight and ergonomic solution for clearing debris from gardens, patios, and driveways. Featuring a variable speed motor and a slimline removable blower tube, it provides powerful performance without the restriction of power cables. The system is designed for comfort and efficiency, weighing only 1.7kg to ensure ease of use during extended garden maintenance tasks.
