Overview

Compact and lightweight design for easy maneuverability in garden environments.

Versatile 20V Cordless Garden Saw

This 20V Lithium-ion cordless reciprocating saw is designed for high-reach pruning and versatile garden maintenance without the need for ladders. Featuring a telescopic aluminum handle that extends up to 2150mm, it allows for effortless cutting of high branches. The tool is part of a multi-tool battery family, allowing the same power pack to be used across a wide range of cordless garden equipment.
