

Cordless Grass and Weed Trimmer

This cordless trimmer is designed for cutting grass and weeds. It features a lightweight design, adjustable handle, and a rotating head for edging.

Overview

Cordless Garden Maintenance Solution

This cordless grass and weed trimmer is designed for efficient maintenance of courtyards, roadsides, schools, and hospitals. Featuring a lightweight, ergonomic design with an adjustable handle and rotating head, it ensures ease of use for various landscaping tasks. The unit is powered by a high-performance lithium battery, offering a quieter and cleaner alternative to traditional gas-powered tools.
