

Cordless Hand Blender with Variable Speed

This cordless hand blender offers variable speed control with indicator lights. Optional attachments include a deluxe stainless steel stick, potato masher, and double whisk for versatile kitchen tasks.

Product Overview

Versatile Cordless Performance

This cordless hand blender provides maximum freedom of movement in the kitchen without sacrificing power. Featuring an 11.1V DC motor and rechargeable lithium-ion battery technology, it is designed for demanding tasks like blending hot soups or chopping meats. With a safety lock mechanism and intuitive variable speed control, it balances high-performance utility with user-friendly operation.
