

# Cordless Handheld Garden Chainsaw

This cordless chainsaw is designed for one-handed operation in garden environments. It features a lightweight design and rotating handle for flexible and easy cutting of branches and small trees.

## ADDITIONAL IMAGES

## Overview

Lightweight and ergonomic design optimized for one-handed operation and reduced user fatigue.

### Professional Cordless Garden Chainsaw

This DC20V cordless garden chainsaw is a high-efficiency tool designed for one-handed operation, making it perfect for tree surgeons and gardening enthusiasts. It features a unique, patented handle that rotates 45 degrees in either direction for superior maneuverability in tight spaces. Engineered for performance, the powerful motor is up to 50% more efficient than standard models, extending battery life significantly for longer pruning and trimming sessions.

## Technical Specifications

Equipped with a tool-free chain and bar tensioning system for quick and easy maintenance.

Voltage	20 V
Battery Capacity	2000 mAh
Chain Speed	4.8 m/s
Rotation Speed	3800 r/m
Oil Reservoir Capacity	80 ml

## Performance & Features

The patented handle design allows for 45-degree rotation in both directions, providing 90 degrees of total flexibility.

### Certifications

GS • CE • EMC • ROHS • UL • UKCA • BSCI

### Operational Metrics

**1.5 hours**

Charging Time

**40 mins**

Average Runtime

Key Features	Tool-Free Chain Tensioning, Self-Lubricating System, Manual Lubrication Pump, Anti-Blocking Sawdust Design, Over-Current Protection, Soft Grip Handle
Handle Rotation	45 degrees left and right
