

# Cordless Handheld Sweeper with Triangular Head

This cordless handheld sweeper is designed for efficient cleaning. It features a triangular head for reaching corners and edges, along with a pivoting handle and lightweight design.

## ADDITIONAL IMAGES

## Product Overview

### Efficient Cleaning Solution

This cordless handheld sweeper is engineered for rapid and convenient cleaning tasks. Featuring a unique triangular head design, it effectively reaches into corners and tight spaces that standard sweepers often miss. With a three-side rolling brush system, it captures debris from multiple directions simultaneously, making it an ideal tool for quick cleanups in professional and residential environments.
