Overview

High-Performance Cordless Cleaning

This versatile cordless handheld vacuum is engineered with a powerful brushless motor (BLDC) to deliver efficient cleaning performance. Designed for both floor and upholstery care, it features a lightweight, ergonomic build and a multi-cyclonic filtration system. With dual-mode operation and a washable HEPA filter, it offers a practical solution for quick, effective, and hygienic maintenance in various environments.

Performance Metrics

Suction Power

20 KPa

Max Suction

9 KPa

Standard Suction

Motor Power

230 W

Battery & Runtime

Battery Specifications

- 22.2V Voltage
- 2000mAh Capacity
- Li-ion Technology

Working Time

Mode	Duration
High Power	13 mins
Low Power	26 mins

Charging Time

5 h

Technical Specifications

Filtration System	Miroc-E10 HEPA, Multi-cyclonic, Washable
Noise Level	75 dB(A)
Dust Capacity	0.6 L

Physical Dimensions

Net Weight	1.2 kg
Product Size	276 x 109 x 201 mm

Logistics

Container Loading (20'/40'/40HQ)	960 / 1932 / 2172 pcs
