

# Cordless Impact Drill Driver

This cordless impact drill driver is a versatile power tool suitable for drilling and fastening. It is powered by an 18V Li-ion battery and features adjustable torque settings and a keyless chuck.

## Overview

### Versatile Cordless Performance

This cordless impact drill driver is engineered for a wide range of tasks, including drilling into wood, metal, and plastic, as well as efficient screw driving. Featuring advanced Lithium-Ion technology, the tool is lightweight and compact, offering extended battery life with no memory effect. Equipped with an integrated LED light and a dedicated impact/hammer function, it provides the precision and power needed for professional-grade results.

## Technical Specifications

Voltage Options	12V, 16V, 21V
Torque Range	24N.M to 40N.M
Chuck Capacity	10 mm

## Power & Battery

### Battery Capacity

- 1.5A
- 2.0A

## Certifications

### Compliance Standards

CE • GS • ETL

## Trade Information

Minimum Order Quantity	300
Lead Time	35 days
