

# Cordless Impact Wrench with Variable Speed

This cordless impact wrench is designed for professional use and garden tools. It features a high-torque motor and durable construction.

## ADDITIONAL IMAGES

## Product Overview

### Professional Cordless Performance

This cordless impact wrench is engineered for high-performance fastening and loosening tasks, featuring a brushless motor that offers three times the operational life and maintenance-free reliability. Designed for professional use, it includes an ergonomic soft-grip handle, integrated LED lighting for precision in low-light conditions, and ECP battery protection to ensure extended tool longevity. With variable speed control and a robust 350N/m torque output, it provides the versatility and power required for demanding environments.

## Technical Specifications

### Maximum Torque

**350 N.m**

Max Torque

Rated Voltage	18 V
Chuck Capacity	12.7mm (1/2 inch)
No-Load Speed	0-2000/2200 rpm
Impact Rate	0-3000/min

## Power & Battery

### Compatible Battery Capacities

- 2.0Ah
- 2.5Ah
- 4.0Ah

### Battery Chemistry

Li-ion

## Features

### Key Features

Brushless Motor, Maintenance-free, Variable Speed, ECP Protection, LED Work Light, Forward/Reverse Switch
