

Cordless Leaf Blower

This cordless leaf blower delivers convenient leaf blowing. It features a lightweight design and detachable tube for compact storage.

Product Overview

High-Performance Cordless Cleaning

This 20V cordless blower delivers powerful performance for efficient debris management without the constraints of power cords. Designed with ergonomics in mind, the lightweight build ensures comfort during extended use, while the variable speed settings allow for precision control across different tasks. It is an ideal solution for maintaining lawns, driveways, and patios, powered by a versatile lithium-ion battery system.

Technical Specifications

Voltage	20 V
