

Cordless Leaf Blower Vacuum Mulcher

This cordless leaf blower vacuum is designed for efficient yard cleanup. It features blowing, vacuuming, and mulching functions, and its cordless design provides freedom of movement.

Product Overview

Versatile 3-in-1 Yard Maintenance Solution

This cordless tool combines blowing, vacuuming, and mulching capabilities into a single, lightweight unit designed for efficient yard cleanup. Powered by a high-capacity 62V MAX lithium-ion battery, it offers professional-grade performance without the constraints of power cords. The integrated mulching function significantly reduces debris volume, making it an ideal choice for sustainable garden waste management.
