

Cordless Oxygen Facial Airbrush

This cordless airbrush is designed for home-use skincare treatments, delivering a fine mist of oxygen. It features a detachable reservoir, wireless charging, and adjustable settings for customized treatments.

Product Overview

Professional Skincare at Home

The Cordless Oxygen Facial Airbrush is a portable, rechargeable device designed to bring advanced spa-style oxygen injection treatments to your home. By utilizing high-pressure airbrush technology, it transforms skincare serums into a fine mist for superior absorption and skin hydration. Its ergonomic, wireless design makes it an essential tool for achieving brightening, anti-aging, and deep hydration results.
