

Cordless Pole Hedge Trimmer with Adjustable Head

This cordless pole hedge trimmer features a 5-step adjustable head for different cutting angles. The quick clip knob fix system allows easy adjustment of the telescopic tube, which extends to 2.35m for reaching tall trimming areas.

Product Overview

Professional Cordless Reach

The DC 18V Pole Hedge Trimmer is a versatile and efficient tool designed for maintaining tall hedges and shrubs with ease. Its extended reach eliminates the need for ladders, while the adjustable head allows for precise trimming at various angles. Engineered for comfort, the lightweight construction and ergonomic handle significantly reduce user fatigue during extended operation.

Technical Specifications

Voltage

18 V

Motor Power

Operational Benefits

- Eliminates need for ladders
- Reduced user fatigue
- High mobility in garden settings
- Precise angle adjustments

Power Source

Lithium-ion Battery

Key Features

Cordless, Adjustable Head, Extended Reach, Ergonomic Handle
