

Cordless Pole Pruner

This cordless pole pruner is designed for trimming hard-to-reach branches. It features a long extension pole and a powerful 20V motor for efficient cutting.

Product Overview

Professional Cordless Pole Pruner

This 20V cordless pole pruner is designed for efficient maintenance of trees and shrubs, offering an adjustable reach from 188cm to 270cm. It features a reliable 20V lithium battery system with a clear 3-LED power indicator and a durable construction utilizing PA6-GF30 housing and an aluminum-fiberglass telescopic tube. Equipped with high-quality Oregon bar and chain components, this tool provides a max cutting length of 200mm, making it an ideal solution for reaching difficult branches safely.
