

Cordless Power Drill

This cordless drill is designed for various drilling and fastening applications. It features a variable speed motor, adjustable torque settings, and a keyless chuck for easy bit changes.

Overview

Professional 18V Cordless Drilling Solution

This cordless power drill is engineered for versatile drilling and fastening applications across professional and DIY projects. Powered by an 18V battery system, it offers the portability and convenience needed for demanding worksites without the restriction of cables. With adjustable torque settings and a variable speed motor, users can achieve precise control for a wide range of materials.
