

Cordless Power Drill with 19N.m Torque

This cordless drill has a maximum drilling capacity of 10mm and operates on a 12/14.4V power supply. It features a 1500mAh battery and delivers a maximum torque of 19N.m.

Product Overview

Industrial-Grade Cordless Performance

This versatile cordless power drill is designed for professional applications, offering the freedom of wireless operation without compromising on power. Featuring a three-block integration system, it is engineered for industrial-grade impact drilling and precision plate drilling tasks. With a dual-speed gearbox and adjustable torque, it provides the control needed for a wide range of demanding worksite operations.

Performance Metrics

Key Performance Indicators

19 N.m

Max Torque

1350 RPM

Max Speed

10 mm

Drilling Capacity

Technical Specifications

Operating Voltage	12V / 14.4V
No-Load Speed Range	0-350 / 0-1350 rpm
Max Drilling Capacity	10 mm

Battery & Power

Battery Capacity	1500 mAh
------------------	----------

Features & Applications

Core Features

- Strong power output
- Wireless constraints for mobility
- Three-block integration system

Suitable Applications

Industrial Impact Drilling, Plate Drilling, General Assembly
