Product Overview

Versatile Cooling Solution

This rechargeable table fan combines a fashionable, minimalist aesthetic with robust performance suitable for both daily use and emergency power backup. Featuring a 12-inch blade and dual-power AC/DC functionality, it ensures reliable airflow during outages. Designed for longevity and safety, the unit includes overcharge and over-discharge protection to maintain the integrity of its dual lead-acid battery system.

Technical Specifications

Fan Blade Diameter	12 inch
Wind Speed	1500 RPM
