

Cordless Rotary Electric Shaver

This cordless electric shaver uses a rotary shaving system with three circular cutting heads. It is designed for dry shaving and includes a detachable head and ergonomic handle.

Product Overview

Professional Cordless Rotary Shaver

This cordless rotary electric shaver features an advanced three-head system designed for a smooth and efficient dry shaving experience. The ergonomic handle ensures maximum comfort and control during use, while the rechargeable battery provides complete mobility. With a detachable head design, maintenance and hygiene are simplified for daily professional or personal use.
