Product Overview

Heavy-duty rotary hammer designed for masonry and concrete applications.

Professional 18V system components for high-efficiency operation.

Professional Cordless Rotary Hammer

The STC6802 is a high-performance cordless rotary hammer drill engineered for professional drilling and chiseling in concrete, masonry, wood, and metal. Equipped with an advanced brushless motor, it offers superior power output, extended service life, and optimized efficiency for standard applications. Its robust design, variable speed control, and ergonomic 360-degree auxiliary handle ensure precision, durability, and user comfort in demanding work environments.

Technical Specifications

Impact Power Rate

2.2 J

Impact Energy

Max Drilling Capacity

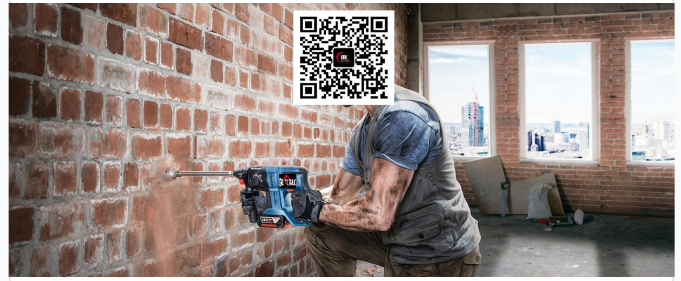

Material	Diameter
Concrete	13mm
Steel	13mm
Wood	30mm

Rated Input Voltage	18 V
No-Load Speed	0-1000rpm
Max Percussion Rate	0-4400bpm

Features

Engineered with a brushless motor for extended tool life and consistent power.

Ergonomic 360-degree auxiliary handle for enhanced control and precision.

Motor Technology

Brushless Motor

Key Features

- Rotary Hammer & Drilling Functions
- 360° Auxiliary Handle
- Variable Speed Control
- Integrated LED Light
- Rotation Control Clutch
- Vario Lock Mechanism

Compliance

Safety Certifications
