

Cordless Steam Iron with Charging Base

This cordless steam iron provides convenient and efficient ironing. It features a charging base for quick recharging and includes a steam function to effectively remove wrinkles.

Product Overview

Versatile Cordless Steam Iron

The SW-2788B is a high-performance cordless steam iron engineered to provide a seamless and hassle-free ironing experience. By utilizing a dedicated charging base, it eliminates the constraint of power cords, allowing for full freedom of movement during use. Equipped with advanced steam capabilities and an ergonomic design, this unit ensures effective wrinkle removal while remaining comfortable for extended ironing sessions.
