

Cordless Steam Iron with Detachable Base

This cordless steam iron features a detachable iron and a charging base. It is equipped with a water reservoir for steam generation and offers adjustable temperature settings.

Product Overview

Unrestricted Ironing Performance

The S-612 cordless steam iron is engineered for professional and home environments requiring maximum maneuverability. By utilizing a detachable charging base, users can perform ironing tasks without the physical constraints of a power cord. This unit is designed to provide high-performance steam output and adjustable thermal settings to safely handle a diverse range of fabric types.
