Overview

High-Performance Cordless Cleaning

This advanced cordless stick vacuum cleaner is engineered for efficiency and versatility in professional cleaning environments. Featuring a powerful 400W brushless motor, it delivers up to 29KPa of suction power with intelligent dust sensing capabilities. The system includes a multi-cyclone 3-layer filtration process and a long-lasting battery, ensuring consistent performance across various floor types and surfaces.

Performance Metrics

Suction Performance

400 W

Motor Power

29 KPa

Max Suction

110000 RPM
