

Cordless Stick Vacuum Cleaner

Cordless stick vacuum cleaner features a lightweight design and swivel steering. It includes a rechargeable battery and a detachable water tank for wet cleaning, suitable for hard floors and carpets.

Product Overview

Professional Cleaning Performance

This cordless stick vacuum cleaner is engineered for efficient cleaning on both hard floors and carpets. Its lightweight, ergonomic construction is complemented by swivel steering, providing superior maneuverability in complex professional environments. The addition of a detachable water tank enables versatile wet cleaning capabilities for comprehensive sanitation.
