

Cordless Stick Vacuum Cleaner

Cordless stick vacuum cleaners offer lithium-ion batteries for powerful, long-lasting performance. The lightweight, ergonomic construction allows easy maneuverability and versatile cleaning.

Product Overview

High-Efficiency Cordless Cleaning

This cordless stick vacuum cleaner is engineered for professional and residential cleaning environments, combining powerful performance with a lightweight, ergonomic design. Powered by a high-capacity lithium-ion battery, it ensures long-lasting suction for extended cleaning sessions. The unit features an advanced filtration system designed to effectively capture fine dust and allergens, providing a healthier air quality during operation.

Key Performance Metrics

Filtration System

High-Efficiency • Dust-Trapping • Allergen-Capture

Power Source

Lithium-ion battery

Design & Utility

Design Qualities

- Lightweight chassis
- Ergonomic handle design
- High-maneuverability frame
- Multi-surface attachment compatibility

Primary Use

Cordless, Stick Vacuum, Versatile Cleaning
