Overview

Professional Cordless High-Reach Trimming

The 20V Lithium-Ion Cordless Telescopic Hedge Trimmer is designed for efficient maintenance of tall hedges without the need for ladders. Part of a versatile 20V battery family, it features a 5-position pivoting head and diamond-ground dual-action blades for clean, precise cuts with reduced vibration. This lightweight tool combines ergonomic handling with high-torque performance, making it an ideal solution for both residential and professional landscaping projects.
