

Cordless Tire Inflator with Digital Gauge

This 20V cordless air pump is designed for inflating tires, sports equipment, and other inflatable items. It features a digital pressure gauge for accurate inflation and automatic shut-off to prevent over-inflation.

Product Overview

High-Efficiency Cordless Inflation

This 20V cordless tire inflator provides a portable and reliable solution for high-volume inflation and deflation needs. Equipped with a digital indicator for precise pressure monitoring and a high-performance 550 motor, it is designed for rapid operation. The unit includes a comprehensive set of accessories, making it versatile enough for tires, sports balls, and bicycle equipment.
