Overview

Professional Cordless Floor Maintenance

The D166 is a versatile cordless floor cleaner and waxer designed for efficient household and commercial floor care. Utilizing high-frequency vibration technology at 1000 RPM, it mimics manual scrubbing to effectively remove stubborn stains like grease, juice, and footprints. Its dual-action design allows for simultaneous cleaning and waxing, ensuring a professional shine on hardwood, tile, and marble surfaces.

Performance

High-frequency 1000 RPM vibration mimics human hand movement for deep cleaning, featuring a slim 8cm profile.
