Overview

Professional Cordless Floor Maintenance

The S350 is a versatile 3-in-1 cordless cleaning solution that combines dry mopping, wet mopping, and waxing functions in a single device. Featuring high-frequency reciprocating vibration that mimics human hand wiping, it effectively removes stubborn stains from various hard floor surfaces including wood, marble, and ceramic. Its detachable battery system and integrated spray function provide a seamless, efficient cleaning experience for modern professional and residential environments.

Performance & Power

Cleaning Performance

1200 r/min

Vibration Frequency

55 mins

Working Time

2000 mAh

Battery Capacity

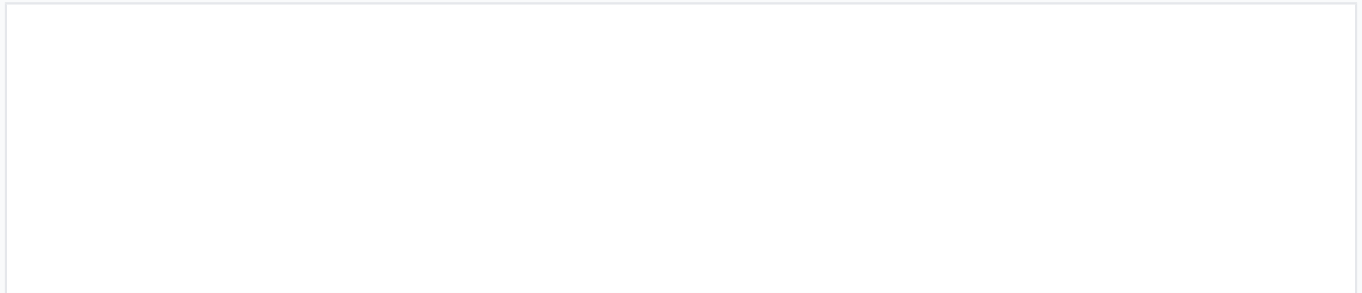

Cleaning Efficiency

Capable of deep cleaning a 100m² area 3-4 times on a single charge.

Cleaning Technology

Operational Modes	Dry Mopping, Wet Mopping, Waxing, Polishing
Spray System	Precise mist spray design ensures even floor wetting without leaving water stains.
Dual Pad Design	High-frequency reciprocating movement with a wet front pad for scrubbing and a dry back pad for moisture absorption.

Design & Ergonomics

Smart Features

- Intelligent control chip for smooth operation
- LED front sensor lights for dark area visibility
- Self-locking upright placement with dormancy mode
- Anodic oxidation extension tube for height adjustment
- 270° rotating handle for corner access

Body Profile

Thin fuselage design for cleaning under furniture and beds.

Battery & Charging

Charging Flexibility

- Direct machine charging via base
- Independent battery pack recharging
- Dual battery simultaneous charging support

Mop Pad Specifications

Available Pad Types

Pad Type	Material/Feature	Best Use Case
Standard Pad	Multi-layer (Cotton/Flax/Barb)	Deep stain removal and gap cleaning
Disposable Pad	Biodegradable material	Hygienic use, no hand washing required
Durable Pad	Spiral hard & soft fibers	Stubborn stains and water absorption
Looped Pad	Electrostatic pile	Hair and fine dust removal

Maintenance

Ease of Maintenance

- Detachable one-click water tank
- Separated storage to prevent bacteria breeding
- Replaceable handle battery
- Soft glue handle design to protect walls
