

Corundum Grinding Wheel for Steel

This corundum grinding wheel is designed for rough grinding applications on ordinary steel. It is suitable for use on carbon steel, general steel, and malleable cast iron.

Product Overview

Corundum Grinding Wheel for Steel

This corundum grinding wheel is engineered for effective material removal and shaping on a variety of metallic surfaces. Designed for compatibility with electric tools, it features a central mounting hole for secure and easy installation. It is an essential tool for sharpening, deburring, and surface preparation tasks in industrial and workshop settings.

Applications

Primary Uses

- Rough grinding
- Sharpening
- Deburring
- Surface preparation

Compatible Materials

Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze

Technical Specifications

Tool Compatibility

Electric Tools

Abrasive Material

Corundum
