

Countersink Drill Bit Set

This high-speed steel countersink drill bit set is designed with a 90-degree countersink angle and three cutting edges. The tin-coated surface treatment enhances durability and performance.

Product Overview

High-Performance HSS Countersink Set

This HSS (High-Speed Steel) countersink drill bit set is designed for precision and durability in professional machining environments. Featuring a 90-degree countersink angle and three cutting edges, these bits ensure clean, efficient material removal. The TiN-coated surface treatment significantly enhances wear resistance and extends tool life, making it an ideal choice for creating countersunk holes across a wide variety of materials.

Technical Specifications

Surface Treatment

TiN-Coated

Material HSS (High-Speed Steel)

Countersink Angle 90 degrees

Cutting Edges 3
