

Countertop Fruit and Vegetable Juicer

This countertop juicer is designed for extracting juice from fresh fruits and vegetables. It features a wide feeding chute, a pulp container, and a juice collection jug.

Product Overview

Professional Countertop Juicer

This high-efficiency countertop juicer is designed for commercial and professional environments, featuring a robust 700W motor capable of processing whole fruits and vegetables with ease. Equipped with a wide feed tube and a durable stainless steel micro-mesh filter, it ensures maximum juice extraction and minimal preparation time. The unit includes a safety locking arm and two-speed settings, making it a reliable and versatile tool for high-volume juice production.
