Product Overview

Professional Countertop Gas Oven

This countertop gas oven is engineered for performance and durability in professional kitchen environments. Constructed with a robust stainless steel shell, it offers excellent heat resistance and corrosion protection, ensuring longevity and easy maintenance. Featuring automatic piezo ignition and a dual-turbine fan motor, this unit provides consistent heating performance for efficient grilling and cooking tasks.

Technical Specifications

Heat Power

4 KW

Heat Output

Gas Type	LPG, NG
Gas Pressure	2800Pa or 2000Pa
Ignition System	Automatic Piezo Ignition
Motor Type	Full Copper, Dual ball, Double turbine

Dimensions and Weight

Product Size	665 x 400 x 210 mm
Grill Size	415 x 215 mm
Net Weight	7.13 KG

Logistics

Loading Capacity

Container Type	Quantity
20GP	400
40HQ	950

Carton Dimensions	700 x 435 x 225 mm
