

Countertop Ice Cream Maker with Built-In Compressor

This countertop ice cream maker features a built-in compressor for self-refrigeration. It has a stainless steel exterior with a transparent lid and a digital control panel.

Product Overview

Professional Countertop Ice Cream Maker

This freestanding ice cream maker is designed for efficient, consistent frozen dessert production. Featuring a powerful built-in compressor, it eliminates the need for pre-freezing bowls, allowing for immediate operation. With precise digital controls and multiple texture settings, it provides professional results for soft, medium, or hard ice cream.
