

Countertop Kitchen Blender

This is a countertop kitchen blender with a clear graduated jug for easy measuring. It features multiple speed settings for customized blending.

Product Overview

Professional Countertop Blender

This powerful 500W countertop blender features a durable 1.5-liter glass jar designed for versatility and ease of use in professional kitchen environments. Equipped with a unique safety interlock system and non-slip rubber feet, it ensures stable and secure operation during daily blending tasks. Its modular design allows for quick detachment of parts, making cleaning both simple and efficient.
