

Countertop Kitchenware Sterilizer

This countertop sterilizer uses both ultraviolet light and high-concentration ozone for disinfection. It has a block size of 605x635x500 mm and a half block size of 564x620x500 mm.

Overview

Professional Kitchenware Sterilizer

This high-capacity countertop sterilizer offers a sophisticated dual-system approach to kitchen hygiene. Combining ultraviolet disinfection with high-concentration ozone in the upper chamber and high-temperature far-infrared heating in the lower drawer, it ensures comprehensive sanitization. Designed for efficiency, it delivers two-star disinfection performance for demanding culinary environments.
