

Countertop Sauce Making Appliance

This compact kitchen appliance is designed for creating sauces. It features a two-part construction consisting of a base unit and a removable pot with a lid.

Product Overview

Professional Countertop Sauce Maker

This compact countertop appliance is designed to simplify the sauce-making process for professional and home kitchens alike. With a powerful 650W heating system and a high-quality non-stick pot, it ensures consistent results for a variety of culinary applications. It is an ideal solution for preparing small batches of sauces such as tomato sauce, salad dressings, and black pepper sauce with ease.
