

Countertop Water Purification System

This compact water purifier is designed for household use. It provides purified drinking water through its visible filtration system.

Product Overview

Clean Water for Your Home

This countertop water purification system is designed to transform standard civic tap water into clean, refreshing drinking water. Featuring a multi-stage filtration process including ultrafiltration and active carbon, it ensures high-quality output for household use. Its compact, user-friendly design makes it an ideal addition to any kitchen countertop.
