

Cow-Shaped Humidifier Dehumidifier

This compact device serves as both a humidifier and a dehumidifier. Its cow-shaped design and rotary control make it suitable for personal use in small spaces.

Product Overview

Dual-Function Climate Control

This compact, cow-shaped device offers versatile climate control by combining both humidification and dehumidification capabilities in a single unit. Designed for personal or small room environments, it features intuitive rotary controls for easy operation. With integrated indicator lights for power status and water levels, it ensures reliable performance and user-friendly maintenance.
