

Cow-Shaped Ultrasonic Humidifier

This humidifier is shaped like a yellow cow and adds a playful touch to any room. It features a transparent water tank and a control knob for adjusting the humidity level.

Overview

Bionic Cow-Shaped Humidifier

This bionic cow-shaped ultrasonic humidifier combines playful, lively aesthetics with advanced air quality technology. Designed for quiet operation, it features nanometer antibiosis technology and an integrated anion device to improve indoor air quality. It is an ideal solution for offices, reading rooms, and guest rooms, particularly in environments with air conditioning or heating.

Technical Specifications

Voltage	110V-220V 50Hz
Power	38 W
Water Tank Volume	4 L
Evaporation Rate	380 ML/H

Features

Key Features

- Anion air purification device
- Automatic shut-down on low water
- Adjustable humidification intensity
- Nanometer antibiosis technology
- Super-quiet operating noise reduction
- Lighting proof design

Performance

Operational Metrics

12 hours

Max Continuous Runtime

Applications

Recommended Environments	Office, Reading Room, Guest Room, Air-conditioned rooms, Heated rooms
