

Cow Split Leather Work Gloves

These cow split leather work gloves are designed for superior protection and durability. They feature reinforced palms and fingers for enhanced abrasion resistance and offer excellent grip and flexibility.

Product Overview

Heavy-Duty Protection

These cow split leather work gloves are engineered for durability and reliable hand protection in demanding industrial environments. Featuring a robust palm construction and a breathable striped cotton back, they balance safety with comfort for extended wear. The rubberized cuff design ensures a secure fit, effectively keeping debris out while maintaining flexibility for various manual tasks.
