

CR-P2 Lithium Battery

This high-performance CR-P2 lithium battery is designed for cameras and other high-drain devices. It features a compact and lightweight design for easy portability.

Overview

High-Performance Lithium Power

This CR-P2 lithium battery is engineered for high-drain devices, particularly professional photography equipment. It offers a reliable, long-lasting power source with a compact and lightweight form factor, ensuring portability without compromising performance. With an impressive shelf life of up to 10 years and a wide operating temperature range, it is a dependable choice for both professional and consumer applications.

Technical Specifications

Nominal Voltage	6 V
Operating Temperature	-20°C to 60°C
Shelf Life	10 years

Features

Design Benefits

Compact • Lightweight • Long-lasting

Ideal Applications

Professional Cameras, High-Drain Devices, Consumer Electronics
