

CR2025 3V Lithium Coin Cell Battery

This 3V lithium coin cell battery is commonly used in small electronic devices. It provides a reliable and long-lasting power source for low-drain applications and contains 0% mercury and cadmium, making it environmentally friendly.

Product Overview

High-Performance Lithium Power

The CR2025 3V lithium coin cell battery is a reliable, long-lasting power source designed for low-drain electronic devices. Featuring high energy density and a stable discharge voltage, it ensures optimal performance for everyday electronics. This environmentally friendly battery is engineered with 0% mercury and cadmium, making it a safe choice for various consumer and industrial applications.

Technical Specifications

Rated Voltage

3 V

Voltage

Capacity

150 mAh

Capacity

Dimensions

20.0mm diameter x 2.5mm height

Shelf Life

5 years

Storage Performance

After 12 months at specified conditions, discharge capacity is e 80% of original.

Compliance & Environment

Environmental Status

Non-Hg • Non-Cadmium

Certifications

CE, ROHS, SGS, REACH, MSDS

Logistics

Available Packaging

- Tray bulk
- Blister card
