

# CR2032 3V Lithium Coin Cell Battery

The CR2032 is a 3V lithium coin cell battery, providing a compact and reliable power solution for various electronic devices. It features a high energy density and low self-discharge rate, ensuring a long shelf life and consistent performance.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Lithium Coin Cell Power

This 3V lithium coin cell battery provides a dependable power source for a wide range of low-drain electronic devices. Designed for consistent performance, it features high energy density and an extended shelf life, making it an ideal choice for compact applications such as watches, calculators, and medical equipment. Engineered to meet international quality standards, it ensures stability and longevity in various operating environments.

## Technical Specifications

### Dimensions

**20 mm**

Diameter

**3.2 mm**

Height

Nominal Voltage	3 V
Nominal Capacity	230 mAh
Average Weight	3 g
Test Conditions	15K@load resistance, end-point voltage 2.0V

## Logistics & Shelf Life

### Packaging Details

Unit	Quantity
Blister Card	5 PCS
Inner Box	100 PCS
Carton	5000 PCS

**Shelf Life** 2 Years

**Carton Specifications** 39 x 29 x 30 cm, Gross Weight: 21.9 kg

## Applications

**Compatible Devices** Toys, LED Lights, Clocks, Calculators, PDAs, Memory Cards
