

Crane Elevator Wheel for Construction Machinery

Durable elevator wheel designed for agricultural construction machinery, specifically cranes. It is constructed from high-quality materials for long-lasting performance and resistance to wear and tear.

Product Overview

High-Performance Crane Elevator Wheel

This durable and robust elevator wheel is specifically engineered for agricultural construction machinery, particularly cranes. Constructed from high-quality materials, it is designed for long-lasting performance and superior resistance to wear and tear in demanding environments. It features a secure mounting system to ensure reliable operation, making it an ideal choice for replacing worn or damaged components to maintain optimal machinery functionality.

Technical Specifications

Key Features

- Wear-resistant construction
- Secure mounting system
- High-durability materials
- Engineered for demanding environments

Primary Application

Construction Machinery / Cranes

Sector Compatibility

Agricultural Construction, Heavy Machinery, Crane Systems
